## **BEI, Katalyst sign MoU**

The Bangladesh Enterprise Institute and the Katalyst on Sunday signed a Memorandum of Understanding on providing support to the CSR Centre at BEI to develop its institutional capacity to champion CSR in Bangladesh. The MoU was signed at a monthly Corporate Social Responsibility Roundtable at BEI, said a press release. Under the MoU, the Katalyst will support the Centre so that it can flourish in an independent way to be more service market oriented. Through this partnership, BEI and Katalyst will prepare a five-year business plan and formally launch the centre at a public event to a wider audience. The business plan will detail sector-specific products and services to be offered by the Centre and align its goals and objectives with the projected impacts and outcomes.
